INFORMATION REQUEST

INFORMATION REQUEST #: IR-26-014

REQUESTED BY: **Councillor Stevenson**

TOPIC: **Verify Grove Drive / Hilldowns Road Resurfacing**

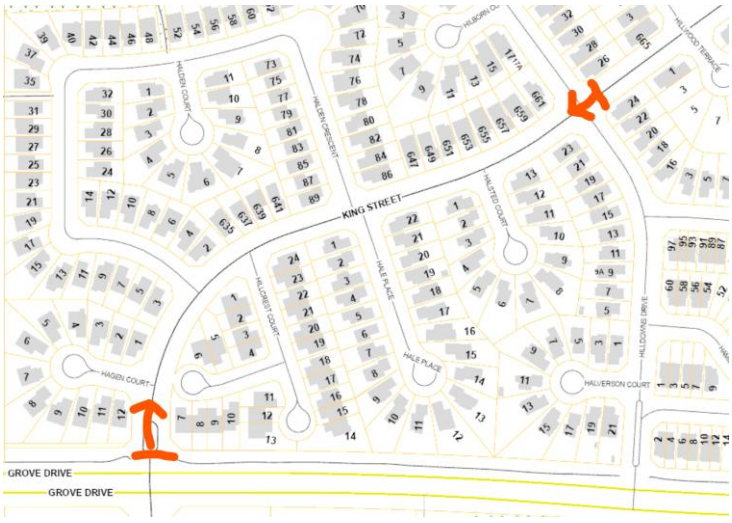

DATE OF REQUEST: **November 2, 2026**

DATE OF RESPONSE: November 3, 2026

QUESTION: Please verify the future surfacing planned for Grove Drive, specifically *2030: King Street (Grove Drive to Hilldowns*) on page 301 of the online, digital version of the 2027-2029 Proposed Budget and Fiscal Plan.

Response

The Collector/Local Pavement Program currently identifies King Street from Grove Drive to Hilldowns for pavement rehabilitation in 2030, representing an approximate length of 425 metres.

The proposed limits are preliminary and will be reviewed and confirmed through the updated Pavement Management Report scheduled for completion in 2027, along with field inspections to

verify pavement conditions and rehabilitation requirements.

Background

The Collector/Local Pavement Program is based on anticipated pavement conditions and rehabilitation priorities. As additional condition assessments and field inspections are completed, project limits may be refined to address the areas of greatest need..

Financial Implications / Taxation Impact

Any adjustments to the project limits would be accommodated within the approved project budget. Any significant scope or budget changes would be brought forward for Council consideration through a future budget process.
