REQUEST FOR DECISION

MEETING DATE: June 1, 2023

TITLE: Adoption of the Agenda - Youth Advisory Committee - June 1, 2023

DIVISION: Corporate Services

SUMMARY:

Members of the Committee are given the opportunity at the start of the meeting to add or remove agenda items or change the order of proceedings.

PROPOSED MOTION:

THAT the agenda be adopted, as presented.

BACKGROUND / ANALYSIS:

The agenda sets the course of action for the meeting. This ensures the business of the day is followed through and completed as required.

Committee members are provided the opportunity to add items they would like to discuss during the meeting or to remove items.

The agenda is approved by a motion of the Committee and must be passed by a majority of the members present. Once the agenda is approved, no further changes may be made unless approved by the majority of the Committee members present.

TITLE: Minutes - Youth Advisory Committee - May 4, 2023

DIVISION: Corporate Services

SUMMARY:

The minutes of the previous Youth Advisory Committee meeting are placed on the agenda for approval.

PROPOSED MOTION:

THAT the May 4, 2023 Youth Advisory Committee Meeting minutes be approved as presented.

BACKGROUND / ANALYSIS:

The Youth Advisory Committee minutes are the official written record of the actions that took place during the meeting; a snapshot of the decisions that the Committee made and the outcome of the vote.

The minutes are written without notes or transcribing of discussions that may have taken place during an agenda item.

Committee members review the minutes prior to the meeting to review for any changes that may need to be made. A motion for an amendment is required if an error has been noted. If there are no amendments to the minutes, a motion to approve the minutes as presented is made by a member of the Committee. The minutes are signed by the chair and the recording secretary.

A copy of the minutes will be included in a future regular meeting of Council agenda package.

TITLE: Climate Change Resilience Education Program

DIVISION: Planning & Infrastructure

SUMMARY:

A grant has been provided from the Municipal Climate Change Action Centre to develop an education program about local climate change impacts in Spruce Grove. The following individuals from Morrison Hershfield will join the Youth Advisory Committee on Zoom to seek feedback on the program: Clarissa Huffman, Project Manager and Climate Change Planner, Lexy Relph, and Kiernyn Matthews. Avelyn Nicol, Senior Environmental Advisor, City of Spruce Grove, will also be in attendance as lead for the City of Spruce Grove.

PROPOSED MOTION:

A motion is not required.

BACKGROUND / ANALYSIS:

The City of Spruce Grove is developing a program to help communicate climate change impacts and build individual and community capacity to respond to climate change through behavior, decision-making, and choice.

In addition to bolstering the Climate Change Action Plan implementation planning process, this project will also help support several specific goals and actions which have been identified in Council's Strategic Plan. First, Goal 8.a is to "provide educational resources to residents to help them prepare for the effects of climate change". A core outcome of this work is to increase community awareness of climate change and individual options for action.

Strategic Plan Goal 8.c, specifically Action 1, is to "develop an education program for residents about local climate change impacts". A two-way communication approach will be used to

support climate change capacity building. This means that an education program about climate change means not only sharing about local risks and impacts themselves, but also learning about how this knowledge is understood and utilized within the community. Thus, a key part of this process is to engage in an iterative process where the City and the community work together to co-create a community-led response. This approach acknowledges that ‘capacity building’ is about both having adequate knowledge and the tools required to integrate that knowledge into behavior, choice, and action.

This presentation connects to the Youth Advisory Committee work plan through commitment three, connecting with and protecting the environment.

OPTIONS / ALTERNATIVES:

n/a

CONSULTATION / ENGAGEMENT:

Clarissa Huffman, Lexy Relph, and Kiernyn Matthews reside out-of-province and will be joining virtually.

IMPLEMENTATION / COMMUNICATION:

Spruce Grove Communications is represented on the project team and will be assisting in providing web-based education materials and posts for social media platforms as well as promoting a program pilot.

IMPACTS:

n/a

FINANCIAL IMPLICATIONS:

The program development and pilot are being funded fully (\$78,200) by the Municipal Climate Change Action Centre and there is a funding agreement in place for project delivery.

Overview of the Climate Change Action Plan & Implementation Plan

What is Climate Adaptation and Mitigation?

This plan addresses both these two important responses to climate change.

Mitigation actions

reduce or prevent releases of greenhouse gases to the atmosphere or capture and store carbon

Adaptation (or resilience) actions

focus on managing the anticipated impacts of climate change to your community

Install solar panels on buildings.

Purchase electric vehicles.

Improve energy efficiency of homes.

Increase recycling and composting.

Greenhouse gases are released to the atmosphere, trapping heat and causing global warming

Global warming is changing the regional and local climate which will impact your community

Increase access to spray parks during heat waves.

Help residents upgrade smoke infiltration equipment in their homes.

Design sewer and water system to manage both extreme rainfall and drought conditions.

High Priority Climate Risks for Spruce Grove

Our Future Climate

Under a high climate change scenario, we could see the following changes to the climate in Spruce Grove by the 2060's relative to the recent past¹.

Hotter Summers

Warmest maximum temperature of 36°C
(historically: 31°C)

3 heat waves per year
(historically: none)

24 days in a year above 30°C
(historically: 3 days)

Water Stress

A 168-day long frost-free season per year
(historically: 128 days)

Increased drought risk due to hotter summers and invariable summer precipitation

Warmer Winters

One day per year below -30°C
(historically: 8)

88 winter days (where temperatures drop below -5°C)
(historically: 130 days)

An average of 68 freeze-thaw cycles per year
(historically: 89)

More Extreme Weather

Increase in high intensity rainstorms
(20% increase in days with >10 mm rain)

More extreme wind and lightning

High Risk Climate Impacts

Predicted Change from the 1990's to the 2060's

Multi-year Droughts

70% increased likelihood of drought

Heat Waves

Up to 8x more heat waves

Freezing Rain

At least one freezing rain event a year

Hailstorms

Similar future likelihood

¹Strictly speaking, the recent past or "historical" values are the annual average values over the 30-year period 1976-2005 (the 1990's) and the values for the 2060s are the average annual values over the 30-year period 2051-2080. To identify changing conditions across time, climate scientists work with 30-year averages to smooth out the effects of year-to-year variations in weather.

Introduction To The Capacity Building Education Project

This Project

We want **YOU**, the community, to play an active role in taking **climate action** at the local level!

We want to understand how we can **support** you to do that.

Goals and Outcomes

- Project Goals:
 - Create community educational materials about programs and resources that already exist in Spruce Grove
 - Increase community awareness of climate change adaptation and resilience
 - Initiate conversations about actions the community can take to participate in climate adaptation in their own neighbourhood

Resilient
Vegetation

Water
Management

Resilient
Homes

Emergency
Preparedness

MORRISON HERSHFIELD

Key Themes for Individual Action

What the City is Already Doing - Adaptation

- Exploring opportunities for indoor recreation during extreme heat or poor air quality times
- Protecting Fenwyck Fen area under ER and natural asset analysis
- Updating flood mapping and stormwater plan
- Working with the Emergency Response Committee
- Increasing the tree canopy
- Reviewing real time ice updates for outdoor rinks/ice conditions

Ideas for Climate Resilient Vegetation and Green Spaces

- Use native plant species and consider not using synthetic fertilizers in home gardens
- Plant climate resilient plants
- Get involved in community gardens
- Visit Spruce Grove green spaces
- Compost and use in your garden

Ideas for Water Conservation and Stormwater Management

- Use rain barrels at home
- Have shorter showers
- Install aerators and other flow control devices
- Choose soft landscaping with less watering needs
- Have more water permeable surfaces around your home like grass instead of concrete

Ideas for Emergency Preparedness and Response

- Research items to have at home for emergencies
- Find out where the closest cooling/warming centers are (e.g., spray parks)
- Connect with your neighbours through the City's block party program

Ideas for a Climate Resilient Home

- Review the interactive Climate Resilient Home Adaptation Tool for changes you can make at home like:
 - Improved insulation
 - Drought resilient landscaping
 - Use of indoor air purifiers
 - Installation of a Sump Pump

MORRISON HERSHFIELD

Group Discussion

Discussion Prompts

1. Is anything missing from the four themes?
 1. Resilient vegetation
 2. Water management
 3. Emergency preparedness
 4. Home resilience
2. How can you see yourself implementing these actions into your daily life?
3. What knowledge and education is needed for you to feel able to take action?

REQUEST FOR DECISION

MEETING DATE: June 1, 2023

TITLE: Shaping our Community - Municipal Development Plan - Youth Advisory Committee - June 1, 2023

DIVISION: Planning & Infrastructure

SUMMARY:

Planning and Development will be providing an overview of the Shaping our Community project to update the City's Municipal Development Plan and hosting a workshop to gather input and feedback from the Youth Advisory Committee members.

PROPOSED MOTION:

A motion is not required

BACKGROUND / ANALYSIS:

A Municipal Development Plan (MDP) is a document which provides direction for decision-making that will guide the future development of a community, whether it be a city, town, or rural municipality. Spruce Grove's MDP, "The Shape of our Community", will guide the evolution and growth of our city over the next 20-30 years.

The plan provides a policy framework to guide and shape growth in the city. It provides direction on future land use, development, urban design, transportation, and other service areas. Typically, topics include:

- Future land use patterns
- Growth management
- Urban form and design
- Economic development
- Heritage preservation

- Environmental management
- Housing and neighbourhood design
- Commercial and industrial development
- Parks, recreation, and culture
- Community and protective services
- Transportation
- Utilities

These plans involve a significant amount of public engagement to ensure the plan reflects the community. This presentation and workshop are part of that overall engagement.

This presentation and activity connect to the Youth Advisory Committee workplan through commitment four, Building a community that supports vulnerable people and people in need, and has opportunities for all residents to feel connected to their community, as well as through bylaw direction to provide a youth lens on youth-oriented City policies, programs, or services.

OPTIONS / ALTERNATIVES:

n/a

CONSULTATION / ENGAGEMENT:

This session is part of the overall all engagement plan for the Municipal Development Plan and will include:

- Information on Shaping our Community - the process to develop the City's Municipal Development Plan
- Workshop-like discussion to gain Youth Advisory Committee's perspective and input

IMPLEMENTATION / COMMUNICATION:

The input from the Youth Advisory Committee will inform the development of outcome statements and policies for the Municipal Development Plan.

Youth Advisory Committee Presentation June 1, 2023

What is an MDP?

- Municipal Development Plan
- Document providing direction for decision-making to guide the future development of a community
- Guides the evolution and growth of our city over the next 20-30 years
- Every municipality must have one
- Updated about every 10 years
- Not the only planning document

Creating a Municipal Development Plan

Step 1: Values

7000 responses

Step 1: Values

Connection

Spruce Grove has a strong sense of belonging and community where people can access services and amenities that meet their needs and contribute to a high quality of life.

Diversity & Inclusion

Spruce Grove enjoys equitable, barrier-free and affordable access to places, services, opportunities, and participation in civic life allowing for people of all backgrounds and abilities to live with dignity.

Resilience

Spruce Grove's creativity and self-reliance allows for innovative and adaptive responses to social, economic, and ecological changes.

Well-Being

Spruce Grove's health and wellness is supported by access to recreation, culture, the natural environment, and a prosperous economy within a safe and secure community.

Step 2: Drivers & Preference 225+ responses

Step 2: Drivers

Economy

The economic, fiscal and market factors that influence how the community operates, sets priorities, and allocates financial resources.

Governance & Partnerships

The way in which nations, governments, agencies, organizations, business and industry are structured and choose to work together and collaborate on ideas, projects, or services.

Transportation & Mobility

The methods and systems by which goods and people move within and between communities including distribution, commuting, employment and personal movement.

Drivers

Urban Form & Placemaking

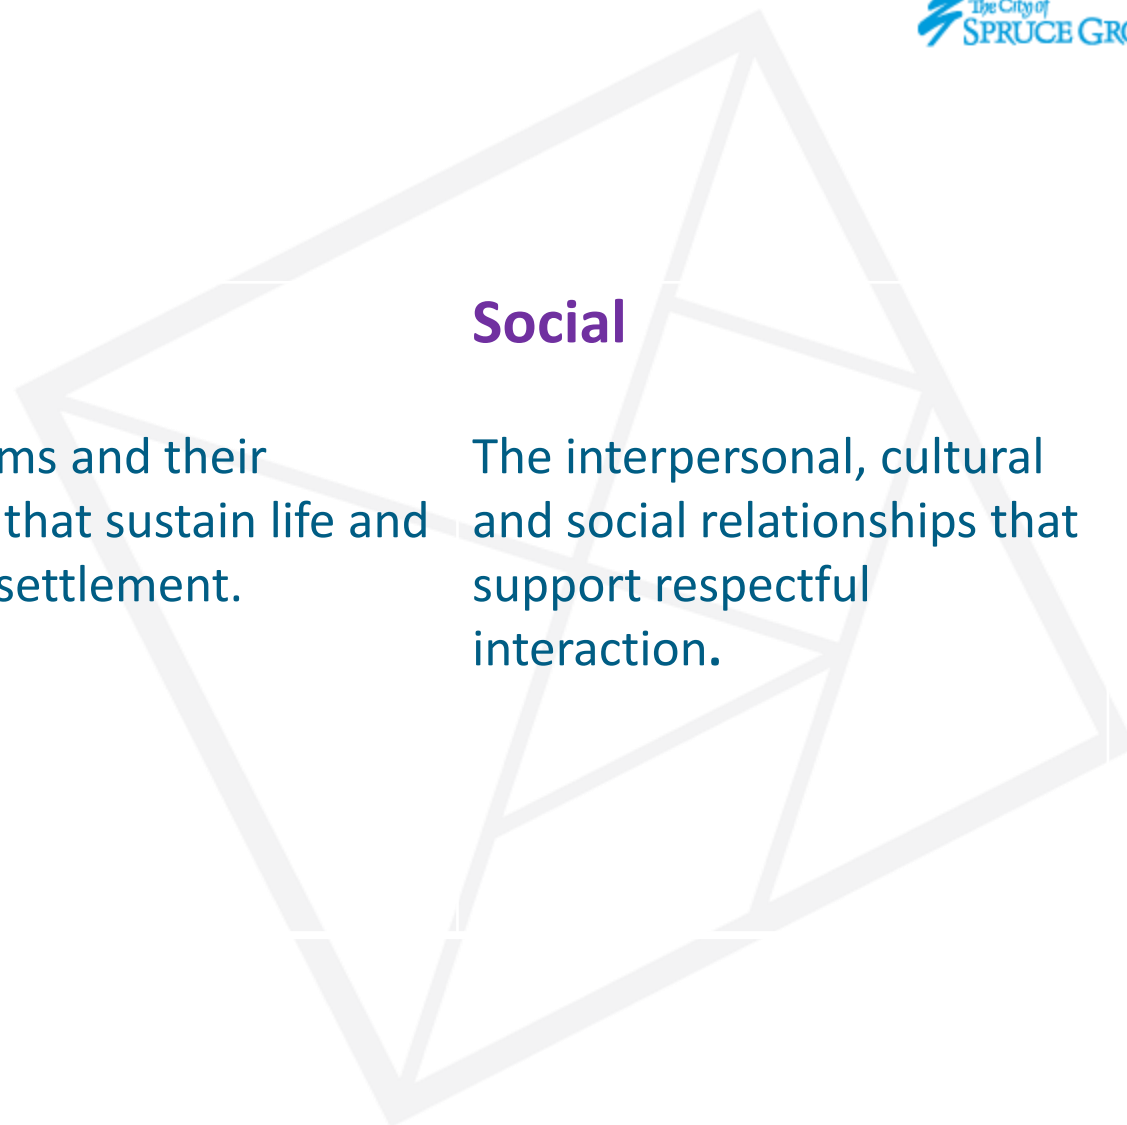

The relationship between people and the physical characteristics of places, including the size, shape, location and number of buildings, roads, parks and open spaces that impact how people behave, feel, experience, or connect to place and the public realm.

Environment

The natural systems and their interconnections that sustain life and supports human settlement.

Social

The interpersonal, cultural and social relationships that support respectful interaction.

Your preferences?

1. Thinking about your neighbourhood where you live, hang out and play, what would make your neighbourhood better?
2. What is your favorite way of getting around the city (transportation), and what do you like about it? What could make it easier to get around?
3. When you are with your friends, where do you like to play or hang out?
4. How can we make great places in the city for you and your friends?

MEETING DATE: June 1, 2023

TITLE: Protective Services Presentation

DIVISION: Community & Protective Services

SUMMARY:

The Youth Advisory Committee will be receiving a presentation from the City of Spruce Grove Fire Services and Community Peace Officers who work to maintain the safety, peace, and security of Spruce Grove.

PROPOSED MOTION:

A motion is not required.

BACKGROUND / ANALYSIS:

Spruce Grove has an integrated fire service that provides patient transport and ambulance services in addition to traditional fire department services such as fire suppression, dangerous goods response, and other types of response needed to protect property, people, and the environment. Spruce Grove Fire Services also promotes fire and injury prevention through a variety of activities.

City of Spruce Grove Community Peace Officers work within Spruce Grove to provide the following services:

- Investigate municipal bylaws and select provincial legislation [complaints](#)
- Enforcement of municipal [bylaws](#)
- Enforcement of Province of Alberta statutes, including but not limited to:
 - Traffic Safety Act
 - Gaming and Liquor Act
 - Tobacco Reduction Act
 - Environmental Protection Act

- Trespass to Premise Act
- Animal Protection Act
- Animal control duties
- Assist RCMP, EMS, and fire services
- Patrolling of residential, commercial, and industrial areas
- Attend special events to assist in public safety and security
- Deliver proactive safety programs in the community

These presentations from Fire and Enforcement Services connect to the Youth Advisory Committee work plan through the commitment to gaining an understanding of a wide array of issues and background information that will provide a strong foundation for recommendations to Council.
