New notification signs help keep Spruce Grove residents informed

We're providing more ways for the community to stay informed — builders and developers proposing a land use change in an existing City neighbourhood, or planning a new development, may now be required to place an on-site notification sign at the proposed location.

Notification signs will help keep nearby residents informed at the start of the planning process, with clear and timely information about proposed land use applications before changes happen, helping keep neighbourhoods informed and engaged. Find the details at sprucegrove.org/NotificationSigns.

Save on bill, increase comfort, and improve the value of your home

The Clean Energy Improvement Program is now accepting applications from Spruce Grove homeowners who want to make energy efficient and renewable energy upgrades to their home.

Each eligible applicant can receive up to \$50,000 in low-interest financing, with convenient repayment through their property tax bill. Spruce Grove applicants will also receive a generous rebate of 7.5% of financed costs, applied directly to reduce their total financing amount, when their project is complete. Visit sprucegrove.org/CEIP to learn more.
