Extra organics collection event happening October 6–10

If you’re raking up all the leaves in your yard, you may end up with more waste than will fit in your green organics cart. The City holds extra organics collection events to provide residents the opportunity to easily dispose of organic materials, and the next extra organics collection event is happening from October 6–10.

To participate, residents must place their extra organics out on their regular waste collection day in a brown paper lawn or yard waste bag. The last extra organics collection event for the year will take place on November 3–7.
