News You Can Use

Strong growth and development positively impact City's 2026 budget

Stronger than anticipated growth and development in Spruce Grove is set to positively impact the City of Spruce Grove's 2026 budget, as outlined in the 2026 Spring Budget Adjustment approved by City Council last week.

When the 2026 budget was initially approved in December, the anticipated property assessment growth was 4.12 per cent; however, updated assessment data shows actual growth of 4.99 per cent that will generate an additional \$438,447 in property tax revenue. Additionally, building permit revenue is forecast to bring in \$70,000 more than initially anticipated.

This increase in assessment growth and building permit revenue will reduce the forecasted tax revenue increase from 4.68 per cent, approved by Council in December 2025, to 3.99 per cent, providing welcome savings to Spruce Grove taxpayers.
