

CEIP ELIGIBLE ENERGY EFFICIENCY UPGRADES
CITY OF SPRUCE GROVE PERMIT AND INSPECTION REQUIREMENTS*

*This is intended as a general guide, but participants/contractors should confirm requirements with the Municipality.

CEIP Eligible Energy Efficiency Upgrade	Permit Required?	Type of Permit	Inspection Required?
Attic insulation	Y	Building	Y
Wall insulation	Y	Building	Y
Foundation insulation	Y	Building	Y
Rim joist insulation	Y	Building	Y
Energy-efficient window – replacement	Y if value of work is over \$5000	Building	Y
Energy-efficient door – replacement	Y if value of work is over \$5000	Building	Y
High-efficiency central air conditioner – replacement	TBC	Development Permit	TBC
High-efficiency gas furnace	Y	Gas	Y
ECM motor for residential furnace	N	N/A	N/A
High-efficiency gas boiler	Y	Gas	Y
Heat recovery ventilation or energy recovery ventilation	Y	Building Electrical (TBC by Safety Code Officer)	Y
Air-source heat pump	Y	Building Electrical (TBC by Safety Code Officer)	Y
	TBC	Development Permit	TBC
Ground source heat pump	Y	Building Electrical (TBC by Safety Code Officer)	Y
Indoor lighting control – new/modified	N	N/A	N/A
Lighting fixtures - replacement	N	N/A	N/A
Drain water heat recovery	N	N/A	N/A
Heat pump water heater	Y	Electrical (TBC by Safety Code Officer)	Y
High-efficiency storage water heater	Y	Electrical (TBC by Safety Code Officer)	Y
Tankless gas water heater	Y	Gas Building (TBC by Safety Code Officer) Electrical (TBC by Safety Code Officer)	Y
Solar PV system	Y	Building (if installed on the structure – roof or walls) Electrical	Y

	TBC	Development Permit	TBC
Solar thermal water heating	Y	Plumbing	Y
	TBC	Development Permit	TBC
Battery energy storage	Y	Building Electrical	Y
Custom Upgrade	Will depend on the upgrade
